Washington, DC 20554

Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am feel this proposal will make my current service unaffordable.

Under the flat fee proposal you are considering, low-volume and primarily residential customers like me would bear the same universal service fund burden as a high-volume residential or business customers. This is not fair!

I use my wireless phone for emergency only. I don't want to lose this benefit so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the Universal Service Fund Fair!

Sincerely,

Carl Watson
